Hi Yekta,

I approve but you are not clear.

1. The first thing is for Mahesh to send the readers an email saying that they will receive a draft today (please acknowledge it), an updated version by Jan 7 and that the seminar would be on Tuesday Jan 11 if it fits their schedule (I am fine at any time).
2. Then you will send an email with the current draft to the 2 readers and Mahesh and I, asking us to acknowledge receipt (this is key).

Mahesh, do you agree with this?

Best,

Catherine

**Subject:** The thesis and the submission to the external reviewers

Hi Professor Mahesh and Professor Catherine,

I have attached the updated thesis. If you would approve,

1. I will send the thesis to the external reviewers (Prof. Dietl and Prof. Mitran) to start the display period
2. I will kindly request a final thesis submission to the reviewers on the 7th of January (Friday)
3. I will request an appointment to have the seminar on the 11th of January (Tuesday)

May I kindly ask your opinion?

Kind regards,

Yekta
